Cayman Companies

The Cayman Islands have been an attractive place to do business and establish companies for decades. Cayman is a British Overseas Territory with an elected government and its own legal system rooted in English common law. Cayman is the world's fifth biggest banking centre, and has a healthy, stable financial system. Cayman co-operates with other nations in the fight against crime, terrorism, and money laundering, and provides a secure home for international financial transactions and the ownership of assets.

There are no personal or corporate income taxes in Cayman, so Cayman-domiciled companies pay no Cayman tax on their revenues, whether this is generated from business within the Islands or abroad.

Cayman has developed a wide range of corporate structures to meet the differing needs of business owners. Let us help you determine which type of company is best for you.

Types of Cayman Companies

- Exempt
- Exempt Limited Duration
- Exempt Segregated Portfolio
- Exempt Unlimited
- Exempt Limited Guarantee
